

# Letter of Digital Accessibility Conformance

2024-12-27

Alcohol101+

101 Constitution Avenue, NW. Suite

375 East. Washington, DC 20001

A360 Enterprises, LLC (Allyant) is an expert in digital accessibility auditing, testing, consulting and training. Alcohol101+ has engaged Allyant to test and evaluate the accessibility of Alcohol101+'s desktop website with a homepage located at <https://devapp.alcohol101.plus/>.<sup>1</sup>

Allyant performed live-user accessibility auditing, including but not limited to testing by individuals with disabilities using assistive technology, combined with digital testing tools, on a representative sample of pages of Alcohol101+'s website. The accessibility audit was completed approximately October 17, 2024.

As of our Quality Assurance testing on December 26, 2024, our live-user accessibility testers did not encounter any accessibility blockers that would deny a user using assistive technology from accessing the main content and functionality. The following is the professional opinion of the Allyant testing team:

- The live-user accessibility testers were able to successfully access, use, and navigate the website.
- The website substantially conforms with Level A and Level AA of the Web Content Accessibility Guidelines (WCAG) version 2.1.
- Actual Size (Responsibility.org) has addressed all significant issues that are in their control including owned source code and content within the scope of the project.

In addition, Alcohol101+ has retained Allyant to provide ongoing accessibility live-user reviews (remediation support and QA testing) of \*[www.devapp.alcohol101.plus](http://www.devapp.alcohol101.plus). With this in place, Allyant will perform ongoing accessibility testing and support of selected elements of the website, including live-user testing on a regular basis.
